

It Might Be Today

Vitaband Wrist Band

We like every week to bring what we call a Prophecy Update. We show how news and trends in the world are corroborating centuries-old prophecies found in the Bible.

When the apostle John wrote the Revelation of Jesus Christ in the first century he spoke of a cashless society in which each citizen would have some sort of a 'mark' on their body by which they would be uniquely identified to conduct business and contact the government.

Mid-way through the seven-year Great Tribulation, the man we know as the antichrist will take over that system and demand that his citizens swear allegiance to him. Those who refuse will not be able to conduct any business.

Ours is the generation that has seen the technology developed to fulfill this prophecy.

John specifically mentioned "the hand" as one of the places on or in our bodies that we would have this technology. It was therefore interesting to read of a product called Vitaband. The lead title on their website reads, *Cash & Identification on Your Wrist*.¹ It is a wristband that you can wear that has medical and personal information stored electronically. It's being marketed to runners and cyclists and others who would like to be able to be identified in an emergency and be able to make purchases, but who don't have anywhere to carry their money.

Excerpts from their website:

The VITAband acts like a medical ID bracelet providing medical professionals with your identification, relevant medical history and emergency contacts to help ensure you get the care you need in the event of an emergency.

¹ <https://vitaband.net/index>

VITAband is partnered with Microsoft HealthVault, the leading provider of universal health record technology. A HealthVault account allows you to collect and store your health information from many sources in one location.

Unlike other ID bracelets, VITAband is the only one that enables you to make cashless purchases. Using prepaid contactless payment technology, you simply load funds onto your VITAband online, then you're ready to make purchases on the go with a simple wave of your wrist. No more stuffing money into your socks or sports bra.

The bracelet is priced at \$19.95 with an annual subscription fee of \$19.95.

This is exactly the kind of news you'd expect if we were trending towards the fulfillment of Bible prophecy. You be seeing advancements in technology that make the kind of thing John saw in the first century possible and probable.

I remind you that although we follow the fulfillment of Bible prophecy, we are not waiting for any prophecy to be fulfilled. Jesus promised to return to resurrect and rapture the church as an imminent event. By that we mean the certainty that He may come at any moment and the fact that no prophesied event stands between the believer and that hour.

Are you rapture-ready? If not, get ready, stay ready, and keep looking up.
Ready or not, Jesus is coming!
