

# It Might Be Today

## PROPHECY POTPOURRI

Every week we bring you what we call a Prophecy Update. We show how news and trends in the world are corroborating centuries-old prophecies found in the Bible.

When you look at the Bible as a whole, and compile various last days prophecies, they fall into a few major categories. For example, some of the major trends to watch for are the nation of Israel, a revived Roman Empire, an invasion of Israel led by Russia, and the advancements in technology that could create a cashless society.

**All of those things are trending at once in remarkable ways!**

As far as a revived Roman Empire, just this week euobserver.com posted an article titled, *EU is not falling apart*.<sup>1</sup>

Excerpts:

European Commission chief Jose Manuel Barroso has told the Chinese public that the EU will become a fully-fledged "political union" after the financial crisis.

As far as a Russian-led invasion of Israel, it is a fact that Russia is growing stronger and more militant. As part of his campaign promises Vladimir Putin said he would spend billions to build up the country's military as a safeguard in the current international instability. Then, in an article posted by ynetnews.com, "Russia warned Israel on Wednesday that attacking Iran

---

<sup>1</sup> <http://euobserver.com/24/115259>

would be a disastrous and played down the failure of a UN nuclear agency mission to Tehran..."<sup>2</sup>

Another article indicated Russia had upgraded a Syria-based electronic station to warn Iran of US/Israeli attack.<sup>3</sup>

Trends toward a cashless society are snowballing. On February 29 FoxBusinessNews posted a story titled, *Is Cash Really Going to Disappear?*<sup>4</sup>

Their conclusion:

The fact is, we could become a cashless society within a very few short years. All the necessary technology is already available. What's stopping us is our emotional attachment to banknotes and coins, and the unwillingness of some of us to embrace change.

Will the added convenience, security and law-enforcement benefits that going cashless could bring wean us off our love of folding money and jingling coins? Who knows? But there's a good chance that one day during your lifetime you may suddenly realize that you haven't seen a bill or a quarter for months.

I remind you that although we follow the fulfillment of Bible prophecy, we are not waiting for any prophecy to be fulfilled. Jesus promised to return to resurrect and rapture the church as an imminent event. By that we mean the certainty that He may come at any moment and the fact that no prophesied event stands between the believer and that hour.

Are you rapture-ready? If not, get ready, stay ready, and keep looking up.  
***Ready or not, Jesus is coming!***
