

# IT MIGHT BE TODAY

## "Feeling Chippier"

Week-after-week for the past seven years we have presented a Prophecy Update.

According to estimates by scholars, somewhere between two-thirds and three-fourths of the nearly 2500 prophecies in the Bible have been fulfilled **to the letter**.

We therefore expect the remaining last days prophecies to be literally fulfilled.

Since that is the case, we should be able to look at news and trends in the world and see things lining up for their fulfillment.

We haven't talked about technology for a while. By "technology" I mean the advancements in bio-technology that make it possible for us to conduct all of our business with some sort of personal identifier either in us or on us - like an imbedded microchip, for instance, or a wearable electronic tattoo.

The latest advance in this type of tech was reported in a story titled, *Will Microchip Implants in Humans Become Mandatory?*

Excerpts:

Last year [2013] the line between man and machine became even more blurred, when Stanford University announced its scientists had created the first purely biological transistor that was made entirely of genetic material.

Stanford assistant professor of bioengineering, Dr Drew Endy, described the breakthrough as the final component needed for a biological computer that can operate within living cells and reprogram living systems.

And to some degree the future is now, with biometric technology already being used in certain wide-scale applications. As writer Michael Snyder informs us, a hand-scanning payment method is being tested in southern Sweden, biometric scanners/RFID tracking devices are already used in college dining halls and some amusement parks, and the technology is even “being used in Africa to keep track of who is being vaccinated,” he writes.

Of course, we are not surprised by these advances in bio-tech. Students of Bible prophecy have been expecting them ever since the apostle John, in the first century, wrote about a "mark" on you by which you would be identified and transact all your daily business.

It is that technology which will be hijacked by the antichrist in order to control his subjects in the last half of the seven-year Great Tribulation.

Everywhere you look, the signs are pointing to the coming Great Tribulation and, beyond it, to the Second Coming of Jesus:

- Israel is a nation again - just as predicted 2500 years ago.
- Europe has risen as a united power, the revived Roman Empire.
- The technology exists to implement a global, cashless economy that is accessed by a personal identifier on you or in you.
- The church is experiencing a great falling away from the faith.

We see the signs; but we won't be here for the Great Tribulation. Jesus will return imminently to resurrect the dead believers of the church age, and that when He does He will also rapture living believers off of the earth. We will be changed in a moment, in the twinkling of an eye, and be transported to Heaven.

Are you ready for the rapture? If not, get ready, stay ready, and keep looking up. ***Ready or not, Jesus is coming!***
