

IT MIGHT BE TODAY

"The Office"

We are now in our eighth year of presenting a Prophecy Update. This is #383 in that series.

The Bible is almost 30% prophecy, and most of the Bible's over 2500 prophecies have been fulfilled to the letter. We therefore expect the remaining prophecies of the Last Days to be literally fulfilled.

We live in a time when knowledge is increasing exponentially. This was predicted by the prophet Daniel in the last chapter of his book.

We are especially seeing the development of technologies that sound eerily similar to the first century biblical prophecy that everyone in the Tribulation will have a personal identifier, either in them or on them, by which they will transact all their daily business.

Referred to as "the mark of the beast," the technology itself does not damn anyone to Hell. Mid-way through the Tribulation, the world leader we know best as the Antichrist will demand that people swear allegiance to him; that they worship him.

If a person refuses, he or she will not be able to buy or sell anything, or participate in society on any level.

There is always news about mark-of-the-beast-like tech. BBC posted an article on their website titled, *Office puts chips under staff's skin*.

Excerpts:

Want to gain entry to your office, get on a bus, or perhaps buy a sandwich? We're all getting used to swiping a card to do all these things.

But at Epicenter, a new hi-tech office block in Sweden, they are trying a different approach - a chip under the skin.

Felicio de Costa, whose company is one of the tenants, arrives at the front door and holds his hand against it to gain entry. Inside he does the same thing to get into the office space he rents, and he can also wave his hand to operate the photocopier.

That's all because he has a tiny RFID (radio-frequency identification) chip, about the size of a grain of rice, implanted in his hand.

Soon, others among the 700 people expected to occupy the complex will also be offered the chance to be chipped. Along with access to doors and photocopiers, they're promised further services in the longer run, including the ability to pay in the cafe with a touch of a hand.

The whole process is being organized by a Swedish bio-hacking group... Hannes Sjoblad says he and the group have another objective - preparing us all for the day when others want to chip us.

"We want to be able to understand this technology before big corporates and big government come to us and say everyone should get chipped - the tax authority chip, the Google or Facebook chip."

Then, he says, we'll all be able to question the way the technology is implemented from a position of much greater knowledge.

We - Christians, that is - may be around to see large-scale microchipping; or some other large-scale biometric id systems.

We won't be here to take the mark of the beast. Jesus promised to keep us out of the entirety of the Tribulation. We will be resurrected and raptured before the seven years ever begins.

Are you ready for the rapture? If not, get ready, stay ready, and keep looking up. ***Ready or not, Jesus is coming!***
