

IT MIGHT BE TODAY

"Let's Get Chemical"

“From *The Walking Dead* to *Resident Evil: The Final Chapter*, it seems like everything these days is set in a post-apocalyptic world,” wrote an author.

Another said, “From arthouse films to animation to popcorn blockbusters, destroying the world has never been more in vogue. Directors and movie studios are clambering over one another to see who can create the most dystopian and destructive vision of the near-future.”

It's therefore a good time to see the signs of the times and be able to give an answer to folks about what is really going on, and going to occur, based on the Bible.

500 end times Bible prophecies remain to be fulfilled. You'd therefore expect there to be news, and trends, that anticipate their fulfillment.

That's why each week we present what we call a Prophecy Update.

We taught a series on the Days of Noah on Wednesday nights. I'd strongly encourage you to go to calvaryhanford.com, find those studies, and either watch, listen, or read them. They are less than 25 minutes long; only a few pages of reading, if you choose the PDF.

<https://www.calvaryhanford.com/bible-studies/the-days-of-noah/>

They are pertinent to end times prophecy because Jesus pointed us back to the Days of Noah. He said,

Mat 24:37 But as the days of Noah *were*, so also will the coming of the Son of Man be.

Mat 24:38 For as in the days before the flood, they were eating and drinking, marrying and giving in marriage, until the day that Noah entered the ark,

Mat 24:39 and did not know until the flood came and took them all away, so also will the coming of the Son of Man be.

We've discovered in those studies that Jesus was describing a particular type of “marrying” that was occurring before the Flood.

Fallen angels were marrying and mating with human women. Their offspring were the Nephilim - a superhuman race of giants whose DNA was manipulated.

It is this manipulation of human DNA to alter what it means to be human that Jesus seemed to be pointing to as something we could expect to characterize the end times.

Guess what? Manipulating human DNA is all the rage right now. It's as it was in the Days of Noah, except instead of fallen angels, it's being done by fallen humans.

The Guardian posted an article titled, *'Chemical surgery' used to mend harmful mutations in human embryos.*

Excerpts:

Researchers in China have used a procedure described as “chemical surgery” to mend harmful mutations in human embryos for the first time.

The scientists found that it was possible to repair a faulty gene that gives rise to a serious blood disorder called beta thalassemia which can be caused by one misspelling in the DNA code.

None of the embryos treated in the experiments were used to produce babies, and doing so would be illegal in the UK and many other countries. But the work proves that the method, known in genetics as “base editing,” could be an effective way to prevent inherited diseases.

Base editing was dubbed “chemical surgery” by its inventor, David Liu at Harvard University. In the past decade, scientists have developed a range of powerful tools to edit the genetic code, the most popular of which is called Crispr-Cas9. The method uses enzymes to make precision cuts in faulty genes which the body can then repair with the correct DNA.

“For many years, we have been saying that direct gene editing in embryos is some way in to the future. **Now the future is here** and there is much to consider,” said Darren Griffin, a geneticist at the University of Kent.

The future **is** here - the one Jesus said was like the Days of Noah.

We are not looking for any particular sign, or prophecy to be fulfilled. Jesus promised He'd return to rapture His church - which entails the resurrection of the dead in Christ of the Church Age, then the translation from earth to Heaven of all living believers. It is presented in the Bible as an imminent event.

Are you ready for the rapture? If not, get ready, stay ready, and keep looking up. ***Ready or not, Jesus is coming!***
