

# IT MIGHT BE TODAY

## ***"The FBAI"*** ***Prophecy Update #677***

Billy Graham said, "What a moment to take the newspaper in one hand and the Bible in the other and watch and watch the unfolding of the great drama of the ages. This is an exciting and thrilling time to be alive. I would not want to live in any other period."

We reserve a few minutes to discuss current trends that you'd expect from reading Bible prophecy.

We are futurists. We interpret all unfulfilled prophetic passages as future events in a literal, physical, apocalyptic, and global context.

Biometrics, Artificial Intelligence, cashless commerce, the manipulation of human DNA, global government, the exponential growth of human knowledge, one-world religion, and the rebirth of national Israel are End Times developments the Bible predicts.

### **All of these are increasingly trending in the news.**

The rapid progress in Artificial Intelligence (AI) is a disturbing trend. AI is the ability of machines to mimic the human mind. The ultimate goal of AI is to create an object that can think like a human.

One article I read was titled, *Facebook building AI that sees, hears, and 'understands' everything we do.*

Excerpts:

*Facebook wants to build an [artificial intelligence](#) that learns to understand the world like humans - by watching our every move.*

The tech giant has [announced plans](#) to teach AI to 'understand and interact with the world like we do' in first person. It hopes to do this by using video and audio from augmented reality (AR) glasses like its new high-tech Ray-Bans.

*"AI typically learns from photos and videos captured in third-person, but next-generation AI will need to learn from videos that show the world from the center of action," the company said.*

It went on: *"AI that understands the world from this point of view could unlock a new era of immersive experiences."*

Facebook explained it this way: "Ego4D by Facebook AI aims to solve research challenges around egocentric perception: the ability for AI to understand and interact with the world like we do, from a first-person perspective."

How is this a prophetic trend? Accompanying the dreaded Mark of the Beast in the future Great Tribulation will be what the Bible calls, "the image of the Beast." A character called the False Prophet tells "those who dwell on the earth to make an image to the beast who was wounded by the sword and lived. He was granted *power* to give breath to the image of the beast, that the image of the beast should both speak and cause as many as would not worship the image of the beast to be killed. He causes all, both small and great, rich and poor, free and slave, to receive a mark on their right hand or on their foreheads, and that no one may buy or sell except one who has the mark or the name of the beast, or the number of his name."

The "image" is made by "those who dwell on the earth." AI is "made," so to speak, by interacting with humans. The greater the data base, the more advanced the AI.

AI is a strong candidate for what inhabits this "image." It is what we expect from reading the Bible and taking its unfulfilled prophetic passages literally.

We believe the resurrection and rapture of the church are imminent. It could happen at any moment; nothing needs to happen before it. It will occur before the Great Tribulation.

We will all join Him in Heaven while the earth endures one final seven-year campaign of severe evangelism.

Are you ready for the rapture? If not, Get ready; Stay ready; Keep looking up.

***Ready or not, Jesus is coming!***
