### ***Prophecy Update #736***

The only way to make sense of what is happening around the world today is to know what is going to happen tomorrow. God has seen fit to tell us a great many things about the future. There are hundreds of yet-to-be fulfilled prophecies in the Bible.

We reserve a few minutes Sunday morning to suggest news, or trends, that seem to be predicted by a literal, futurist reading of the Bible.

To avoid sensationalism, we are careful to use recognized, reliable sources for news.

We're not saying the things we report are the fulfillment of prophecy. We're saying that they are the things you'd expect to be happening.

A one-world, global government of some sort will be a key feature of the final years on Earth before Jesus returns in His Second Coming. We expect the nations of the world to move in that direction... And they are.

A very unlikely country has stepped-up as a proponent and leader of a more global government. I read an article titled, *China-proposed initiative on global civilization hailed*.

Excerpts:

Leaders of political parties and organizations from around the world have hailed the China-proposed Global Civilization Initiative, saying that it has great relevance, together with the Global Development Initiative and Global Security Initiative, to building up countries' consensus on addressing mounting global challenges in terms of peace, security, development and harmonious coexistence.

Their comments came as Xi [Z] Jinping, general secretary of the Communist Party of China (CPC) Central Committee, unveiled the Global Civilization Initiative on Wednesday at the CPC in Dialogue with World Political Parties High-Level Meeting. The initiative calls for respect for the diversity of civilizations, upholding the common values of humanity in pursuing peace, development, equity, justice, democracy and

freedom, and promoting robust international people-to-people exchanges and cooperation.

Political leaders who took part in the virtual meeting spoke positively about Xi's initiative and expressed their willingness to work with the CPC.<sup>1</sup>

It is a big deal. The CPC and World Political Parties Summit is an annual, international relations video conference between various international political parties, including both governing and non-governing parties, first held in 2021. I couldn't find the stats for this year's summit. In 2021 the summit involved representatives from 500 political parties across 160 countries and over 10,000 party representatives.

The COVID19 pandemic and the constant fear generated by Climate Change are the leading factors that are driving the push for global government. Add to that world hunger, and nations are ready to surrender sovereignty for survival.

In September of 2021, The Pan-European Commission on Health and Sustainable Development convened by the World Health Organization (WHO) called for global governance and recommended the establishment of a Global Health Board. The World Government Summit is an annual event held in Dubai, United Arab Emirates. It brings together leaders in government for a global dialogue about governmental process and policies with a focus on the issues of futurism, technology innovation and other topics.

We are witnessing the stage-setting for the seven year Time of Jacob's Trouble, more commonly called the Great Tribulation.

**We will not, however, be on Earth when God is pouring out His wrath.**

The resurrection and rapture of the church are imminent. It could happen any moment; nothing needs to happen before it.

Jesus will come, in the clouds, and raise the dead believers of the Church Age.

He will transform the bodies of living believers to glorified, resurrection bodies. We will join Him in Heaven while the earth endures one final seven- year campaign of severe evangelism.

Are you ready for the rapture? If not, Get ready; Stay ready; Keep looking up.

***Ready or not, Jesus is coming!***
