

It Might Be Today

UFO REPORT

We like every week to bring what we call a Prophecy Update. We show how news and trends in the world are corroborating centuries-old prophecies found in the Bible.

UFO's are a phenomena we must account for. According to research by Dr. Hugh Ross:

- There have been more than ten million UFO sightings.
- There have been more than one thousand cases of 'physical effects' from a UFO.
- There are more than two thousand cases of contact with alien 'astronauts.'

One in every ten Americans has seen a UFO, including presidents Andrew Jackson and Jimmy Carter and astronauts James McDivitt and Gordon Cooper.

On February 3 a UFO was spotted in Jerusalem. The FoxNews.com story was titled, *'UFO' Hovers Over Jerusalem's Dome of the Rock Shrine*.¹

Excerpts:

A glowing orb filmed hovering over the skyline of Jerusalem has left UFO experts dumbfounded.

The circular object was seen descending slowly over the holy city's iconic Dome of the Rock before flickering and shooting skyward like a rocket. Similar clips have been seen before and debunked as hoaxes. But this latest sighting has proved more difficult to dismiss - as it was recorded from four different perspectives.

Some UFO enthusiasts believe the videos - which have taken the Internet by storm - are final proof that aliens exist, while others say the unidentified object was the Hebrew god Elohim.

Two witnesses at the Armon Hanatziv panoramic lookout near Mount Zion filmed the object at 1am on Saturday. A little after one minute into the clip, the object descends slowly, almost to ground level.

The craft hovers there for a short while and then flickers before shooting upwards at an incredible speed.

Former Ministry of Defense UFO investigator Nick Pope said: "If these are real, they are some of the most incredible videos ever shot.

If you watch educational television, you've noticed more-and-more credible researchers discussing the origins of life on earth as being extraterrestrial. An article posted on the website of *The Canadian* stated the following:

Collaborative research from a gathering of exo-scientists postulate that there are genes from over 20 extraterrestrials civilizations in Human DNA. These exo-scientists have continued the work of Nobel Prize winner Dr. Frances Crick, and other scholars in this area. Current findings are consistent with reports of Professor Sam Chang, who discreetly released information on his own apparent findings, in association with the Human Genome Project.

"Exo-science" is the study of extraterrestrial phenomenon. "Exo-science" is further associated with "exopolitics" which embraces the need for humanity to have open contacts with Extraterrestrials on a representative democratic basis, that respects Earth's sovereignty.²

We have research going on into this hypothesis in our own backyard!
Listen to this excerpt from astrobio.net:

If you spend an afternoon walking along the muddy shore of Mono Lake, with the eastern flank of the Sierra Nevada mountains looming majestically in the background, you'll no doubt discover, as others have before, that it is a place of bizarre natural beauty.

But if you spend your afternoon walking the lakeshore with geomicrobiologist Felisa Wolfe-Simon, you'll also discover that the mud you're walking on may hold an important secret. It may be home to life whose biological makeup is fundamentally different than that of any known life on Earth, life so different from standard terrestrial biology it can literally be considered alien.³

Why should any of this interest us as students of Bible prophecy? Why not just shrug it off?

The Bible specifically warns us that, in the last days, demonic deceptions will increase. **Almost everything attributed to UFO's can be explained by demonic activity preparing the world for some great end-times deception.**

Author Lynn Catoe writes,

A large part of the available UFO literature is closely linked with mysticism and the metaphysical. It deals with subjects like mental telepathy, automatic writing and invisible entities as well as phenomena like poltergeist [ghost] manifestation and 'possession.' **Many of the UFO reports now being published in the popular press recount alleged incidents that are strikingly similar to demonic possession...**

The UFO phenomena is real but it is *not* extra-terrestrial in the way enthusiasts and more-and-more scientist believe. Most reported UFO's are found to have a natural explanation. Those that aren't we believe to be demonic. It is Satan, "the prince of the power of the air," working to deceive the human race.

Expect millions more to witness UFO's and have 'alien' encounters. When you read about them remember that they are a demonic deception and a sign that these are the last days described in your Bible.

Are you rapture ready? If not, get ready, stay ready, keep looking up.
Ready or not, Jesus is coming!
