

IT MIGHT BE TODAY

"A Wristed Development"

We like most Sunday's to bring what we call a Prophecy Update. We show how news and trends in the world are corroborating centuries-old prophecies found in the Bible.

All over the world people are moving forward implementing technologies that allow you to conduct all of your daily business with a wave of your hand.

It's of interest prophetically because it was foreseen two thousand years ago by the apostle John when he received the Revelation of Jesus Christ.

At a time when Roman soldiers were still being paid their wages in salt, John saw a "mark" on a person that would identify them and allow them to buy and sell.

I ran across a couple of recent applications of that kind of thing. One is the MyMagic+ program being rolled out at Walt Disney World in Florida.

MyMagic+ is a billion dollar guest "enhancement" planning program at Walt Disney World that utilizes RFID technology in wristbands and smartphone apps. In a recent statement WDW said, "The next phase of MyMagic+ testing is set to make the MagicBand the only form of resort ID."

The wristband could be used for everything - park entrance, room key, purchases. It's only a matter of time.

Here's a product we will love in the Central Valley:

The RAPID Safe is the first product introduced by Hornady Security. The safe addresses the issue of quickly accessing a firearm if needed, yet keeping the gun secure if it is not.

Claiming the fastest unlock times in the industry, the RAPID is most quickly unlocked using one of the provided RFID transmitters: a card, a key fob, or a wristband... wearing the wristband is the best method. If you were to wake up in the middle of the night and need your gun right away, the wristband is already on and the safe will automatically open as you reach for the pistol.

NBC's Brian Williams has a regular segment that explores what the world will look like in ten years time. In a recent report they indicated in ten year's time everyone would have a microchip implanted under the skin at least for medical information. They quote a researcher who says, "It is possible to free us completely from our wallets and keys." At a store that already features paying using your fingerprint, a consumer says, "you don't really need anything other than your hand, and you've already got that with you."

The world John saw prophetically is ready to be rolled out. It's fantastic, really, that an aged, exiled fisherman would be so accurate.

Meantime we who are saved have what the Bible calls the blessed hope. It is the promise of Jesus' imminent return to resurrect the dead in Christ and to rapture living believers prior to the coming Great Tribulation.

Are you ready for the rapture? If not, get ready, stay ready, and keep looking up. ***Ready or not, Jesus is coming!***
