

IT MIGHT BE TODAY

"A Mount of Evidence"

Each week we present what we call a Prophecy Update. This is #453 in that series.

The Bible accurately foretells specific events - in precise detail - sometimes even centuries before they occur.

Approximately 2500 prophecies appear in the pages of the Bible. About 2000, or 80%, have already been fulfilled to the letter, with no errors.

Because we know that the remaining 500 or so prophecies will definitely be fulfilled, we look for news, and trends, that you'd expect to be taking place.

You might call them the signs of the times.

The Bible predicts that a Temple will be built in Jerusalem on the ancient site of the first two.

Daniel predicted events that would happen in the future Temple, and Jesus verified Daniel's remarks.

You'd therefore expect there to be news about the previous and future temples; and there is.

On September 6, breakingnewsisrael.com posted a story titled, *For First Time EVER, Undeniable Evidence of Jewish Temple Discovered.*

Excerpts:

An incredible new discovery at the Temple Mount has produced the first-ever physical and archaeological evidence that the Jewish Second Temple stood on the Mount 2000 years ago, upsetting Arab claims, increasingly endorsed by the international community, that the Temples never existed.

Archaeologists from the Temple Mount Sifting Project, salvaging artifacts from Muslim destruction at the Temple complex, have completed the restoration of ornate floor tiles which experts believe likely decorated the courtyard of the Second Jewish Temple. The project provides visible and incontrovertible proof, backed up by ancient texts and historical context, of a Jewish Temple on the Mount.

In total, archaeological teams have uncovered approximately 600 colored stone floor tile segments, with more than 100 of them positively dated to the Herodian Second Temple period (37-34 BC).

This represents the first time that archeologists have been able to successfully restore an element from the Herodian Second Temple complex,” said Zachi Dvira, co-founder and director of the Temple Mount Sifting Project.

The Sifting Project began in the Tzurim Valley National Park in 2004 in an attempt to salvage whatever archaeological artifacts it could from destruction caused by illegal construction projects on the Temple Mount led by the Jordanian Waqf that controls the Mount.

This destruction of irreplaceable archaeological artifacts is considered to be part of a larger trend of Temple denial. Denying Jewish connection to the Temple Mount began at the 2000 Camp David Summit, when the Palestinian Authority Chairman Yasser Arafat insisted that “the Temple” existed near Shechem (Nablus), and not on the Temple Mount in Jerusalem.

As exciting as this discovery is, our true hope as Christians is in something that has no sign preceding it.

Jesus will come and resurrect the dead believers, than snatch-away those who are alive. We call this the Rapture of the church.

It is presented by the Bible writers as an imminent, any-moment event.

Are you ready for the rapture? If not, get ready, stay ready, and keep looking up. ***Ready or not, Jesus is coming!***
