

# IT MIGHT BE TODAY

***“Take Your Stinking Hands Off Me, You Dumb Human”***

***Prophecy Update #698***

We reserve a few minutes to discuss current trends that you'd expect from reading Bible prophecy.

We are futurists. We interpret all unfulfilled prophetic passages as future events that will occur in a literal, physical, apocalyptic, and global context.

Biometrics, Artificial Intelligence, cashless commerce, the manipulation of human DNA, global government, the exponential growth of human knowledge, and the rebirth of national Israel are End Times phenomena the Bible predicts. All of these are increasingly trending in the news.

In His prophetic sermon we call the Olivet Discourse, Jesus said the End Times would be like it was in the Days of Noah. Jesus specifically referenced the strange marriages in the days of Noah.

In Genesis chapter six we're told that fallen angels were marrying and mating with human women.

Their offspring were called Nephilim. They were a race of giants. These pairings were altering human DNA

Noah is described as a just man, and perfect in his generations. "Perfect" does not mean sinless, but *complete* or *whole*. It refers to health and physical condition. From this we infer that Noah was chosen to carry on and to restart humanity after the flood, because his genetic blood line and ancestry were 100% human.

**We expect a trend towards altering DNA...and we see it as we search the news.**

Renowned evolutionary psychologist Gordon Gallup coined the term 'humanzee' which refers to a human-chimp crossbreed - a scientifically possible hybridization which was attempted throughout the 20th century.

(Gallup also coined what would be the appropriate terms to refer to human-gorilla hybrids and human-orangutan hybrids which would be a 'hurilla' and a 'hurang').

- ☑ A human-chimpanzee hybrid was born in a Florida lab 100 years ago before being killed by panicked doctors. "They inseminated a female chimpanzee with human semen from an undisclosed donor and claimed not only that pregnancy occurred but the pregnancy went full term and resulted in a live birth. But in the matter of days, or a few weeks, they began to consider the moral and ethical considerations and the hybrid was euthanized."
- ☑ A part-human, part monkey embryo was created in 2021 by scientists at the Salk Institute for Biological Studies in California with the hopes of using them to grow stem cells.
- ☑ Meanwhile, Chinese scientists also claim to have grown human-monkey hybrid embryos, which could be used to harvest transplant organs.
- ☑ And late last year, German and Japanese scientists also spliced human cells into monkey brains in an experiment similar to the hit movie series, *Planet of the Apes*.

The latest article I read was titled, *The secret laboratory project to breed man-ape 'humanzee' super soldiers*. It reports there is a team working in a lab in China where there are fewer legal issues.

If it hasn't happened yet, it will. It is expected by futurists reading prophecy.

We believe the resurrection and rapture of the church are imminent. It could happen any moment; nothing needs to happen before it. It will happen before the Great Tribulation.

- Jesus will return in the clouds.
- He will raise the dead in Christ.
- He will transform the bodies of living believers to glorified, resurrection bodies.

We will all join Him in Heaven while the earth endures one final seven-year campaign of severe evangelism.

Are you ready for the rapture? If not, Get ready; Stay ready; Keep looking up.

**Ready or not, Jesus is coming!**
