

IT MIGHT BE TODAY

“Things To Do in Canada When You’re Dead” Prophecy Update #734

The only way to make sense of what is happening around the world today is to know what is going to happen tomorrow. God has seen fit to tell us a great many things about the future. There are hundreds of yet-to-be fulfilled prophecies in the Bible.

We reserve a few minutes Sunday morning to suggest news, or trends, that seem to be predicted by a literal, futurist reading of the Bible.

To avoid sensationalism, we are careful to use recognized, reliable sources for news.

We’re not saying the things we report are the fulfillment of prophecy. We’re saying that they are the things you’d expect to be happening in the build- up to the future seven year Great Tribulation.

I stumbled upon a 2017 article from Georgia Southern University, published in *The American Journal of Management*. It was titled, *Is Globalization a Fulfillment of Christian Biblical Prophecy?* Its conclusion stated the following:

Until our generation, it has been impossible for any one person or government to completely control the worlds economic system. The changes that have taken place over the past 50-60 years economically and politically have paved the way for a unified government and unified economic system. With the growth in the United Nations and the major changes in currency, the foundation has been laid for Biblical prophecy to be fulfilled. The changes have been gradual, and in the eyes of the world, have just been part of the normal course of business. Globalization has become commonplace. Changes in technology excite the average consumer by creating conveniences never before experienced. The integration of global culture, politics, and economies are embraced worldwide. However, the prophecies of the writers of Daniel and Revelation are being fulfilled before our eyes.¹

One of the driving forces of globalism, if not THE driving force, is concern over climate-change. Everyone wants to save the planet. To do so, organizations like the

United Nations and the World Economic Forum are pushing a radical agenda that would severely impact human freedoms.

There is one issue that has been in the background, unspoken, but is now a part of the discussion. It is the world's population. Too many people, not enough resources, is the mantra.

There is a lot of talk about overpopulation, but little about a solution. What is beginning to emerge, however, is almost unthinkable. Let people kill themselves, or kill them.

James Cameron isn't in charge of anything, but what he said recently is, I think, something we will be hearing more. In an interview with *Time*, the film director said, "I can relate to Thanos... I thought he had a pretty viable answer. The problem is nobody is going to put up their hand to volunteer to be the half that has to go."

If you're unfamiliar with Thanos, he was the big bad in the Marvel Comic Universe. He acquired the power to save the universe by eliminating ½ of its population with a snap of his fingers. You'll see the saying, "Thanos was right," just about everywhere.

The good people at NotTheBee commented, "A lot of the push from the World Economic Forum and other environmental causes these days are following the ideals of Paul Ehrlich, who thinks the ideal population of the Earth is about 1.5 to 2 billion, which if you're keeping track means a reduction of way more than half of the humans on the planet."

Canada knows how to eliminate people. Euthanasia in Canada in its legal voluntary form is called medical assistance in dying (MAID) and it first became legal along with assisted suicide in June 2016 to end the suffering of terminally ill adults.

In March 2021, the law was amended to permit assisted euthanasia in additional situations, including for certain patients whose natural death is not reasonably foreseeable.

They next amended the Canadian *Criminal Code* so as to legalize both physician-administered euthanasia (PAE) and physician-assisted suicide (PAS), and to govern access to both procedures in Canada. The bill disallowed for medically assisted death on the grounds of mental illness, long-term disability, or any curable condition, and did not make euthanasia available to minors.

They amended it again to allow for euthanasia because of mental illness. They are talking about amending it again, to allow state-sponsored suicide for kids - without age limit and without parental consent if necessary.

In 2021, more than 10,000 people died by euthanasia in Canada.

The number of people in the world with access to euthanasia and/or physician-assisted suicide (PAS) is over 200mil.

This is from an older article, 2012. "Despite safeguards, more than 500 people in the Netherlands are euthanized involuntarily every year. In 2005, more than 560 people were administered lethal substances without having given explicit consent. For every 5 people euthanized, 1 is euthanized without having given explicit consent. Attempts at bringing those cases to trial have failed, providing evidence that the judicial system has become more tolerant over time of such transgressions."

In Belgium, the rate of involuntary and non-voluntary euthanasia deaths (that is, without explicit consent) is 3 times higher than it is in the Netherlands.

I list this under 'globalism.' If you think that's a stretch consider this. Satan is a murderer. You'd expect an uptick in murders going into the years of the Great Tribulation. The rush to legalize euthanasia and assisted suicide - it's in the category of murders. Self-murders, but still, murders.

We are witnessing the stage-setting for the seven year Great Tribulation that is described in the last book of the Bible. We will not, however, be on Earth during that terrible Time of Jacob's Trouble.

The resurrection and rapture of the church are imminent. It could happen any moment; nothing needs to happen before it.

Jesus will come, in the clouds, and raise the dead believers of the Church Age.

He will transform the bodies of living believers to glorified, resurrection bodies. We will join Him in Heaven while the earth endures one final seven- year campaign of severe evangelism.

Are you ready for the rapture? If not, Get ready; Stay ready; Keep looking up.

Ready or not, Jesus is coming!
