

IT MIGHT BE TODAY

“One Digital ID to Rule Us All” Prophecy Update #752

The Bible is estimated to be 25%-35% prophecy. It has been 100% accurate.

There is much in Bible prophecy that is yet unfulfilled. For example, beginning in chapter six, *everything* in the Book of the Revelation of Jesus Christ is future to us. We are called *futurists*. We believe that these yet-to-be-fulfilled prophecies will be fulfilled in a physical, literal, global, apocalyptic context.

It makes sense that mankind would be moving in the direction that the prophecies predict.

Biometrics, Artificial Intelligence, cashless commerce, the manipulation of human DNA, global government, the exponential growth of human knowledge, and the rebirth of national Israel are potential End Times phenomena the Bible predicts. All of these are increasingly trending in the news.

I always give two disclaimers:

1. We are careful to use recognized, reliable sources for news. Sensationalism about the future is detrimental.
2. We're not saying the things we report are the fulfillment of prophecy. We're saying that they are the things you'd expect to be happening in the build-up to the future Great Tribulation.

The Bible predicts a “one world government.” An updated term for it is “global government.” World leaders are serious about getting the nations of the world to surrender their sovereignty to a central governing group.

I read an article titled, *UN's Vision Of The Future: One Digital ID To Rule Us All*.

Excerpts:

The UN Secretary-General's vision for the future of global cooperation will be decided at The Summit of the Future in September 2024. Three briefings to be discussed are:

(1) A Global Digital Compact, (2) Reforms to the International Financial Architecture, and (3) The Future of Outer Space Governance.

A vital part of the agenda is also digital connectivity and the establishment of a Global Digital Compact. [The goal is a] digitally connected network of people, entities, devices, and things, that easily can be directed by those who run the system.

The suggestions happen to be very similar to what World Economic Forum prescribed in their report, "Unlocking Technologies for the Global Goals in 2020."

A Digital ID [for everyone] is the cornerstone in this work. [They are suggesting] a new 'apex body' in charge of the entire financial system that will enhance its coherence and align its priorities with the 2030 Agenda for Sustainable Development.

[They admit that] "A digital ID... can... introduce new risks and challenges." It can be used to undermine human rights - for example, by enabling civil society to be targeted, or selected groups to be excluded from social benefits.

This can later be fused with a social credit system and Central Bank Digital Currency (CBDC) - which is now being introduced and tested in many countries across the world.

To receive your daily bread you'll have to obey and accept the instructions from [those in charge]. If the UN declares a "Planetary Emergency," this will have severe consequences for our freedoms (as we experienced during the pandemic).¹

If you were here last Sunday, I mentioned World Coin. The company behind it has developed an eye scanner they call the "Orb." All it takes is just one look, and once your biometric data is in the database you will receive some free money and a new digital identity that you will be able to use all over the Internet. They beta tested with a group of 2m people. In cities all over the world, someone is looking into the Orb every 8seconds to get their World ID.

AmazonOne is Amazon's palm recognition service for identification, payment, and loyalty membership. It reached a critical milestone with more than 3m uses. Whole Foods Market stores are going all in. By the end of this year, all 500+ Whole Foods Market locations in the US will offer AmazonOne for payment and Prime membership benefits. This means Whole Foods Market customers who choose to use AmazonOne

will no longer need their wallet or even a phone to pay - they can simply hover their palm over an AmazonOne device.²

When cash is eliminated, and there is a digital global economic system, the world will be a keystroke away from tyranny.

We are witnessing the stage-setting for the seven year Time of Jacob's Trouble, commonly called the Great Tribulation, that is described in the last book of the Bible.

We will not be on Earth during that terrible Time of Jacob's Trouble.

In the Revelation Jesus wrote, "I also will keep you from the hour of trial which shall come upon the whole world, to test those who dwell on the earth" (3:10). We believe the Lord was addressing the entire church throughout the Church Age. He will keep us "from," meaning totally out of, the coming world-wide tribulation.

The resurrection and rapture of the church is imminent. It could happen any moment; nothing needs to happen before it.

Jesus will come, in the clouds, and raise the dead believers of the Church Age. He will transform the bodies of living believers to glorified, resurrection bodies.

We will join Him in Heaven while the earth endures one final seven-year campaign of severe evangelism.

Are you ready for the rapture? If not, Get ready; Stay ready; Keep looking up.

Ready or not, Jesus is coming!
