

IT MIGHT BE TODAY

"Have A Cow" Prophecy Update #782

If ever there was a time to get excited about the Bible's Last Days prophecies it is now.

The major trends revealed in the Bible are converging: A one-world government, a global economy, a 'mark' of some kind that is necessary for a person to access all products & services, weird marriages and genetic tampering as in the Days of Noah, professing Christians renouncing Jesus, and the exponential growth of human knowledge.

The key, of course, is the nation of Israel. In fulfillment of prophecy, the ethnic descendants of Abraham, Isaac, and Jacob are back in their land. Also in fulfillment of Bible prophecy, Israel and Jerusalem in particular are a problem for the Gentile nations.

The current war with Hamas was triggered by the arrival of red heifers to Israel. They said so, not me. The spokesman for the the military wing of Hamas, Abu Ubaydah, issued a recorded video. Among other things, he underscored the real cause for the October 7 atrocities, the growing conviction on the part of the Hamas leadership that the Jews were on a path of religious reawakening that would lead to the demolition of the Al-Aqsa Mosque on the Temple Mount. Abu Ubayduh said, "We look back 100 days to remember the educated, the complicit, and the incapacitated among the world powers governed by the law of the jungle, reminding them of an aggression that reached its peak against our path... with the start of its actual temporal and spatial division, **and the bringing of red cows as an application of a detestable religious myth designed for aggression against the feelings of an entire nation in the heart of its Arab identity,** and the path of its prophet (the Night Journey) and Ascension to heaven."

We've reported on the red heifer many times, especially recently. Its ashes after sacrifice an essential ingredient for worship in a rebuilt Temple. The problem as they see it is the existence of the Al Aqsa mosque on the Temple Mount where the Jewish Temple once stood. If that is its location, it would mean conflict and war to control the site.

Rare red heifers were found in Texas. They are in Israel. There are voices calling for its sacrifice this upcoming Passover season.

Think of it this way: When President George W. Bush created an alliance of nations to go to war against Iraq, one of the major reasons given was that Sadaam had 'weapons of mass destruction.'

Hamas declared war on Israel because they have...red heifers of mass destruction??

Longstanding Jewish tradition says there were nine red heifers offered so far. The tradition says that the tenth and final red heifer will be burned by the Messiah at the time of the rebuilding of the future Temple.

That is as far as I need to go with talking about the red heifers sacrifice. The Bible predicted Israel would be back in her land, and that her Temple would be re-constructed. These thousands-of-year-old prophecies are coming true before our eyes.

I received the Lord on account of the power of the Word of God in boldly making prophecies that always, 100%, come true. Unbelievers and believers both are wondering what is going on. We can tell them.

Of ourselves we say, "We are going up!"

I'm referencing, of course, the Rapture of the Church. Described as imminent, the Lord will raise the dead in Christ and then transform living believers from these decaying bodies into our forever bodies. All saints from the Church Age in which we live will be safe in Heaven while those who dwell on Earth will be subjected to 7-yrs of God's wrath.

Are you ready for the rapture? If not, get ready, stay ready, and keep looking up.

Ready or not, Jesus is coming!
