***Prophecy Update #789***

**The Bible is estimated to be 25%-35% prophecy. It's very specific prophecies have thus far been 100% accurate.**

There is much Bible prophecy that is yet unfulfilled. For example, beginning in chapter four, everything in the *Book of the Revelation of Jesus Christ* is future to us. That is why we are called futurists. We believe that these yet-to-be-fulfilled prophecies will be fulfilled in a physical, literal, global, apocalyptic context.

It makes sense that the world would be moving in the direction that the prophecies predict. Biometrics, Artificial Intelligence, cashless commerce, the manipulation of human DNA, global government, the exponential growth of human knowledge, and the rebirth of national Israel are End Times phenomena the Bible predicts. All of these are increasingly trending in the news.

1. We are careful to use recognized, reliable sources for news. Sensationalism about the future is detrimental.
2. We're not saying the things we report are the fulfillment of prophecy. We're saying that they are the things you'd expect to be happening in the build-up to the future Great Tribulation.

In the *Revelation of Jesus Christ*, in the future, we read about a fascinating and terrifying "image." A man we call the False Prophet oversees the making of this "image," which by its description seems to possess sentient life.

"[The False Prophet] causes the earth and those who dwell in it to worship [the Antichrist], whose deadly wound was healed. He performs great signs, so that he even makes fire come down from heaven on the earth in the sight of men. [He tells] those who dwell on the earth to make an **image** to the [Antichrist]... He was granted *power* to give breath to the **image**... that the **image**... should both speak and cause as many as would not worship the **image**... to be killed."

What could animate this "image," rendering it sentient and deadly? Artificial Intelligence.

I was sent an article this week titled, *AI candidate running for Parliament in the U.K. says AI can humanize politics.*

Excerpts:

An artificial intelligence candidate is on the ballot for the United Kingdom's general election next month.

"AI Steve," represented by Sussex businessman Steve Endacott, will appear on the ballot alongside non-AI candidates running to represent constituents in the Brighton Pavilion area of Brighton and Hove, a city on England's southern coast.

Endacott is the chairman of Neural Voice, a company that creates personalized voice assistants for businesses in the form of an AI avatar.

He said the idea is to use AI to create a politician who is always around to talk with constituents and who can take their views into consideration.<sup>1</sup>

Another source reported that AI Steve can chat with 10,000 people *at once*.

Will AI power the image? We're not saying that. We are simply pointing out trends you'd expect from your reading of prophecy.

In His incarnation, Jesus proclaimed that the kingdom promised Israel had come. When the Jewish leadership rejected Jesus as their King, Jesus went to Heaven. The physical kingdom on earth went on standby.

We live in the Church Age. It began on the day of Pentecost fifty days after Jesus Christ rose from the dead. It precedes the Time of Jacob's Trouble, more commonly known as the seven-year Great Tribulation.

The Tribulation will not begin until something fantastic happens. The Lord said He would return for us, the Church, raising the dead in Christ, then catching up, rapturing, believers who are alive when He comes. He promised His Church Age believers, "I also will keep you from the hour of trial which shall come upon the whole world, to test those who dwell on the earth" (Rev 3:10).

The resurrection and rapture of the church is always imminent. It could happen any moment; nothing needs to happen before it.

Are you ready for the rapture? If not, Get ready; Stay ready; Keep looking up.

***Ready or not, Jesus is coming!***
