

# IT MIGHT BE TODAY

***“Every Keystroke You Make, I’ll Be Watching You”***

***Prophecy Update #790***

**The Bible is estimated to be 25%-35% prophecy. It’s very specific prophecies have thus far been 100% accurate.**

There is much Bible prophecy that is yet unfulfilled. For example, beginning in chapter four, everything in the *Book of the Revelation of Jesus Christ* is future to us. That is why we are called futurists. We believe that these yet-to-be-fulfilled prophecies will be fulfilled in a physical, literal, global, apocalyptic context.

It makes sense that the world would be moving in the direction that the prophecies predict. Biometrics, Artificial Intelligence, cashless commerce, the manipulation of human DNA, global government, the exponential growth of human knowledge, and the rebirth of national Israel are End Times phenomena the Bible predicts. All of these are increasingly trending in the news.

1. We are careful to use recognized, reliable sources for news. Sensationalism about the future is detrimental.
2. We’re not saying the things we report are the fulfillment of prophecy. We’re saying that they are the things you’d expect to be happening in the build-up to the future Great Tribulation.

Just about anyone who studies Bible prophecy agrees that the reign of the antichrist will be a nightmarish surveillance state. Privacy will be a casualty.

Along those lines, I came across an article titled, *Microsoft Is Giving Windows a Memory and It Might Change Everything*.

Excerpts:

*Microsoft has tried multiple times to make interacting with artificial intelligence an essential part of using Windows, but Recall, a new memory-focused feature it announced alongside its new Copilot+ PCs might be the first time it could actually stick.*

*This turns your computer, not just into a place where you deliberately store things, but a memory for everything you've done and will do on it.<sup>1</sup>*

### **It works by taking continuous screen shots.**

CEO Satya Nadella said, *"We're entering this new era where computers not only understand us, but can actually anticipate what we want and our intent."*

How many dystopian SyFy stories involve predictive behavior? The authorities acting upon what you will do according to some algorithm? It is very Last Days.

In His incarnation, Jesus proclaimed that the kingdom promised Israel had come. When the Jewish leadership rejected Jesus as their King, Jesus went to Heaven. The physical kingdom on earth went on standby.

We live in the Church Age. It began on the day of Pentecost fifty days after Jesus Christ rose from the dead. It precedes the Time of Jacob's Trouble, more commonly known as the seven-year Great Tribulation.

The Tribulation will not begin until something fantastic happens. The Lord said He would return for us, the Church, raising the dead in Christ, then catching up, rapturing, believers who are alive when He comes. He promised His Church Age believers, "I also will keep you from the hour of trial which shall come upon the whole world, to test those who dwell on the earth" (Rev 3:10).

The resurrection and rapture of the church is always imminent. It could happen any moment; nothing needs to happen before it.

Are you ready for the rapture? If not, Get ready; Stay ready; Keep looking up.

***Ready or not, Jesus is coming!***
