

# IT MIGHT BE TODAY

## ***“Gimme That New-AI Religion” Prophecy Update #810***

We set aside a few minutes most Sunday mornings to identify connections between unfulfilled Bible prophecies and current news & events.

There are some 500 prophecies that remain unfulfilled. For example, from chapter four forward, all of the Book of the Revelation is future, except for the few closing exhortations in chapter twenty-two.

An entire chapter in the Revelation, chapter 17, is dedicated to a global religion. While scholars have historically debated whether it is Islam or Roman Catholicism, there is a new contender: Artificial Intelligence. One resource explained, “AI-based religions could emerge, where people worship a Godhead based on AI. These religions could be less hierarchical than traditional religions, with followers connecting online to share experiences and discuss doctrine. (BTW This global dialog is already present on social media).

The *Way of the Future* church founded by former Google engineer Anthony Levandowski is dedicated to worshipping and understanding AI as a deity. Adherents submit that super-intelligent AI could be considered a god-like figure as it surpasses human capabilities. *Way of the Future* was launched in 2015 but shut down in 2021. In November 2023 it was revived.

In June, a religious service was officiated by ChatGPT at the St. Paul church in Germany. The service included 40 minutes of prayers, music, and sermons in front of a congregation of 300 people.

A series of legitimate studies has found that countries where workers had more exposure to robots & automation tended to experience a decline in religiosity.

In the US, respondents who said they belonged to a church, synagogue, or mosque fell from 70% in 1999 to 47% in 2020, according to Gallup.

- You may have seen the video of the robot priest blessing congregants at a Catholic church in Brazil.

- Or the one of the mega-church pastor in South Carolina who launched a paid AI chatbot of himself for 1-on-1 conversations and prayer. (Instead of Pay Per View we could call it Pay Per Pew).

It's getting weird. You can see how AI could play a pivotal role in the global religion prophecies waiting to be fulfilled.

Jesus promised to resurrect & rapture His Church *prior to* His Second Coming, and *before* the Great Tribulation would come upon the whole Earth.<sup>1</sup>

We will not see the revealing of the Antichrist.

The resurrection and rapture of the church is presented as an imminent event. It could happen anytime. Right now, for example.

Are you ready for the rapture? If not, get ready, stay ready, and keep looking up.

***Ready or not Jesus is coming!***
