

IT MIGHT BE TODAY

**"We Do Digital Right"
Prophecy Update #817**

We reserve a few minutes to discuss current trends that you'd expect from reading Bible prophecy.

We are futurists. We interpret all unfulfilled prophetic passages as future events that will occur in a literal, physical, apocalyptic, and global context.

Biometrics, Artificial Intelligence, cashless commerce, the manipulation of human DNA, global government, instantaneous global communication, the exponential growth of human knowledge, and the movement to rebuild a Temple on the Temple Mount in Jerusalem.

These are predicted in the Bible and unfolding as never before.

Technological advances interest us because the Book of the Revelation of Jesus Christ predicts a global government whose cashless economy and services will be accessed by a personal biometric identifier. This identifier, on the forehead or hand, will be necessary for a citizen to make purchases and to participate in society. Once considered fanciful - *that system could be implemented right now.*

Anybody like Taco Bell? KFC? How about Pizza Hut? I read an article this week about their parent company. Its title was, *Yum Bets Big On AI As It Attempts To Move To 100% Digital Sales.*

Excerpts:

Chief Financial Officer Chris Turner talked about the company's goal of complete digital sales... saying "Digital sales up approximately 15% and digital mix surpassing 50%."

Turner said Yum Brands is able to do this through Byte by Yum!, a proprietary software and digital ecosystem that includes AI-driven products for easier operations.

The platform will be used by both employees and customers. The technology will power mobile apps, web ordering, point of sale, kitchen and delivery optimization,

menu management, inventory and labor management and various team member tools.

Currently, 25,000 Yum restaurants, which include KFC International, Taco Bell, and Pizza Hut across the world use at least one Byte by Yum! product.¹

I'm not saying *Byte by Yum!* is the antichrist (although you would expect him to eat Taco Bell).

We read the Bible and it predicts a global, cashless economy - we call it 'digital.' All people will be forced into using it or else they won't be able to by KFC... Or anything! Lo & behold, we read articles like this that are exactly what we expect.

This system will dominate during the future 7yr Great Tribulation. The Church won't be on Earth!!

Jesus promised, "I also will keep you from the hour of trial which shall come upon the whole world, to test those who dwell on the Earth" (Revelation 3:10).

The resurrection and rapture of the church is always imminent. It could happen any moment; nothing needs to happen before it.

Are you ready for the rapture? If not, Get ready; Stay ready; Keep looking up.

Ready or not, Jesus is coming!
