## "River Walk"

### Prophecy Update #822

**We reserve a few minutes to discuss current trends that you'd expect from reading Bible prophecy.**

We don't hear about it very often, but there are geographical changes happening right now in Israel that are in accordance with unfulfilled prophecies. For example, in the book of Ezekiel, we read,

Ezk 47:6 He said to me, "Son of man, have you seen *this*?" Then he brought me and returned me to the bank of the river.

Ezk 47:7 When I returned, there, along the bank of the river, *were* very many trees on one side and the other.

Ezk 47:8 Then he said to me: "This water flows toward the eastern region, goes down into the valley, and enters the sea. *When it* reaches the sea, *its* waters are healed.

Ezk 47:9 And it shall be *that* every living thing that moves, wherever the rivers go, will live. There will be a very great multitude of fish, because these waters go there; for they will be healed, and everything will live wherever the river goes.

Ezk 47:10 It shall be *that* fishermen will stand by it from En Gedi to En Eglaim; they will be *places* for spreading their nets. Their fish will be of the same kinds as the fish of the Great Sea, exceedingly many.

Ezk 47:11 But its swamps and marshes will not be healed; they will be given over to salt.

I watched a cool video<sup>1</sup> showing three of these things occurring right now:

1. Water is running down into the Dead Sea and being purified along the way.
2. Craters are forming naturally, capturing the salt.
3. The fish are small, *but they are there*.

The craters are called *bolaines* (Bo-LAN-o) There are over 9000; two more form *everyday*. It is a natural occurrence. BTW: This is only happening on the Israeli side of the Dead Sea!

These are indicators pointing towards the prophetic future described in Ezekiel. Prophecy often times has a near fulfillment and far fulfillment. We are seeing a near fulfillment. And it is absolutely amazing because none of it is man-made.

Maybe you saw this in the news. I don't think it is prophetic; just weird. The UK plans open-air experiments in solar geo-engineering to reduce incoming solar radiation and mitigate global warming.<sup>2</sup> The primary method involves stratospheric aerosol injection, inspired by the temporary cooling caused by volcanic eruptions. An alternative strategy under consideration is cloud brightening using sea salt. What could go wrong?

Jesus promised His Church, "I also will keep you from the hour of trial which shall come upon the whole world, to test those who dwell on the Earth" (Revelation 3:10).

The resurrection and rapture of the church is always imminent. It could happen any moment; nothing needs to happen before it.

Are you ready for the rapture? If not, Get ready; Stay ready; Keep looking up.

***Ready or not, Jesus is coming!***
